Team presented major design smells they found and proposed solutions
Leon presented testing problems

Decided on a process for refactoring code.

Board
 Do changes \Rightarrow Merge Master in \Rightarrow PR \Rightarrow Review (2) \Rightarrow Merge \Rightarrow del Branch
 Branch \Rightarrow (link issue)
 Main I/O for MainMenu \Rightarrow MainMenu
 Students, Course ... Stored in Main
 \Rightarrow Bring into Mgrs
 ON or Java?
 Split into classes? (put methods in enums)
 General modularisation / fix ups
 e Case
 I/O: Json??
 Group
 - Tutorial Group
 - Lab Group
 - Lecture Group

Backup in Main not needed for

 PR Request c:
 jar \rightarrow MainMenuID
 \rightarrow Mgr classes store class models
 \rightarrow StudentMgrID
 \rightarrow Remove printComponentTypeC
 class

Held team programming session where we made the first few PRs and started refactoring the code

Tasks By Next Meeting
